Profile

Dedicated Front-End Developer | Passionate Learner | Frauenloop Graduate

A self-taught, inquisitive front-end developer with three semesters of intensive coursework through Frauenloop, an organization dedicated to empowering women in tech. Known for diving into challenges headfirst, fueled by curiosity and self-motivation. Eager to apply my skills in an entry-level role, contribute to impactful projects, and continue growing alongside experienced team members.

Work Experience

06/2017 – 02/2020 TOKYO, JAPAN

Junior Purchasing Manager Princeton Ltd.

- Managed procurement for 15 suppliers across 5 countries in Europe and Asia, overseeing over 60 products
- Streamlined product forecasting with a custom Excel function, improving efficiency and reducing development time
- Collaborated with accounting to process 7-8 payments and invoices monthly, ensuring accuracy and timely processing
- Negotiated with forwarders to achieve a 10% reduction in transportation costs across all freight
- Monitored inventory, managed purchase orders, and coordinated shipments to ensure on-time delivery and minimize delays

09/2015 – 07/2016 TOKYO, JAPAN

Junior Language School Manager ILC Kokusai Gogaku Center

- Coordinated and organized 5 classes and 4+ workshops every 6 months, showcasing strong organizational skills
- Supported students in developing learning plans, resulting in a 95% positive feedback rate in post-course surveys
- Revamped lesson materials based on comprehensive feedback, driving a 500% increase in student enrollment
- Collaborated with teaching staff to create and implement tailored lessons and curricula, ensuring high-quality education and positive learning outcomes

Front-end development Experience

01/2022 – 12/2022 BERLIN, GERMANY

Web Development Cohort Frauenloop

- Ideated and built responsive web applications using HTML, CSS, JavaScript, React, and Python
- Applied problem-solving skills through hands-on development of practical websites
- Showed initiative by creating applications from scratch and self-motivating throughout the process
- Established a self-taught routine and discipline to stay motivated and continually upskill.
- Selected to present projects during Demo Day each semester in recognition of the quality and impact of my work.
